PROFESSIONAL EXPERIENCE

- **Milholland Engineering and Surveying Co.**
Senior Projects Manager
Fayetteville, Arkansas

8.5 years

At Milholland Company I managed the operations of a Civil Engineering firm.

- Marketing and writing proposals to secure projects
- Project design from concept through completed construction
- Presented projects to local municipalities, and state and federal agencies for approval and permitting
- Supervision & management of construction site to ensure proper implementation
- Supervision of all staff functions
- Proposed for approval the purchase of software and equipment as needed
- Implemented controls and record keeping systems

- **Genesis Environmental Consulting, Inc.**
Project Manager
Little Rock, Arkansas 5 years

- **B&F Engineering, Inc.**
Project Director
Hot Springs, Arkansas 7 years

At Genesis Environmental and B&F Engineering I managed projects involving environmental permitting and compliance.

- Remediation and restoration of ecologically affected sites ensuring the protection of natural resources; providing creative and functional response to preservation and revitalization of vegetation and wildlife
- Environmental Planning and Design for industrial expansion and construction of new facilities
- Development of natural resources (minerals, spring water, and trees) for industrial production and commercial sale
- Planning and development for commercial lessees of properties where the conservation and protection of scenic and water resources were major design considerations
