High-Octane Networking

Questions

1. **What time of day is best for you to attend this two-hour event?**
2. **How important is it to you to have the motivational/educational message at the event?** We always strive to have a high-content message delivered by an expert, professional speaker, or author.
3. **How important is it to have a full meal?** Food is one of our largest costs and we are exploring moving to a mid-afternoon or mid-afternoon time so we could reduce the cost of the event. We might have more time for the speed networking portion if we eliminated the full meal.
4. **Would you be more likely to attend a mid-morning or mid-afternoon High-Octane Networking event?**
5. **Should we explore also doing a "singles-only" speed networking event in the same format (speaker and speed networking)?** There is currently a speed dating event in Fayetteville. We don't really want to duplicate what they are doing. However, we've had some feedback from past attendees that indicate that they'd like to meet other single professionals.
6. **Please share any thoughts you have on a "singles only" speed networking event.**
7. **What topics would you like to see our speakers address in 2008? Select all that apply.**
8. **What ideas do you have for improving High-Octane Networking?**
